

Dear Customer,

We are excited to announce that Thermoseal is re-branding to align ourselves with the globally active KLINGER Group. As part of our rebranding strategy, our company name will change from Thermoseal to KLINGER Thermoseal. This name change is part of our strategy targeted to emphasize the strength and reliability of the worldwide network of KLINGER Group companies.

Look for the unveiling in the new year. Our phone numbers at both locations will remain the same, but our website URL and employee email addresses will soon use klinger-thermoseal.com domain.

We are your partner for quality sealing products and solutions. We remain strong, vibrant and continue to grow through all of the turmoil of 2020. We've expanded our product and service offerings during this past year in the midst of a global pandemic. If you aren't aware of our new offerings, please reach out to your account manager:

- » KLINGER Kempchen heat exchanger baffle seals and weld rings
- » Insulation kits
- » Maxigraph corrugated metal gaskets
- » Maxiprofile kammprofile gaskets
- » Metal jacketed gaskets
- » RTJs
- » FlangeGuard Spray Shields
- » Custom rubber extrusion products
- » GEP [Gasket Estimating Program]

Thank you for your continued support during this unprecedented year. We look forward to the new year and new look.

Best regards,

KLINGER Thermoseal

Scott Peters
President
